What is the NEW BEGINNINGS PROGRAM?

The New Beginnings Program (NBP) is a 12-week skills development and behavior modification program. Its primary objective is to assist individuals whose lives have been fragmented by some forms of social and psychological events to regain relative wholeness that would potentially lead to a more balanced and productive living.

Utilizing an in-depth intake process, credentialed staff counselors are able to use baseline data to assist the client in developing a self-directed plan of action leading to the achievement of the client’s desired goal(s).

Through a combination of **classroom learning, paid internships, groups, and one-on-one consultations**, clients will learn and acquire information and skills under a 4 component programmatic approach.
